

**WASTAWAY FLUFF or PELLETS**  
A processed engineered fuel that exceeds European standards because it is sanitized, inert and odor-free.

**SOLID RECOVERED FUEL**  
Different from Refuse-derived fuel because it conforms to standards such as the European Committee for Standardization's CAN/343 ANAS.

**REFUSE-DERIVED FUEL**  
Fuel produced by shredding and dehydrating municipal solid waste. Consists mainly of plastics and biodegradable waste.
